

This poster, appearing on billboards in many cities of the United States, expresses graphically the appeal that Woodrow Wilson's administration has made to the working men of America. What stronger appeal can there be than the service Woodrow Wilson has performed that saves this man's family from the brutalities of militarism and enables him to be working instead of fighting in a needless war that would have saved no lives and that would have accomplished nothing for the honor of the United States or for the welfare of humanity?

## WAR SUMMARY

Hard fighting is again taking place in France between Entente allies and Germans. Since Tuesday the British and French near Courcellette and on the Les Boeuys and Guedecourt front and south have attacked violently, with the Germans tenaciously holding them back, except to the east of Les Boeuys, where combined entente forces have gained some ground and west of Les Boeuys in the St. Pierre Vaast wood and near Sally-Salliel where the men of General Foch took additional German trenches. Between Les Sars and Guedecourt and near Schwaben, redoubt the Germans are heavily bombarding the British positions.

On the Transylvania front Rumanians are keeping up their drive of the Austro-Germans in the Jiu valley, but according to Petrograd Teutons have occupied two villages south of the Rothenthurm pass. In the Predal pass sector, the Germans have penetrated Rumanian positions and captured ten cannon and seventeen machine guns and also have made further progress southeast of the Rothenthurm pass.

Russians have assumed the offensive in Galicia. Berlin records repulse of Russian attacks and Petrograd admits that the Russians have been

## CHICAGO EGGS GREET HUGHES WOMEN.

CHICAGO, Nov. 1.—Women who arrived today on the women's Hughes transcontinental train met opposition at an afternoon meeting in a downtown theatre. Derisive jeers which upset the speakers began the heckling which culminated when eggs were tossed at them as they left the theatre. None of the eggs struck the women or the automobiles in which they rode. The Hughes women finished their speeches in spite of opposition. The train left this evening for Buffalo.

pressed back by superior forces. With the advent of fine weather in the Austro-Italian theatre artillery engagements are being fought all along the line. The bombardments are especially violent east of Gorizia and on the Carso plateau.

TAFT TALKS IN OHIO  
STUEBENSVILLE, Ohio, Nov. 1.—W. H. Taft attacked free trade tariff the Adanson law, war prosperity and the foreign policy of the Wilson administration in an address here tonight before a crowd that enthusiastically cheered the speaker.

## COPELAND IS NOT GUILTY OF MURDER

GALVESTON, Nov. 1.—John Copeland, charged with the killing of Wm. Black, an anti-Catholic lecturer, was found not guilty by a jury in the district court here early today, after being on 54 hours. Copeland received the verdict with a smile and turned to his wife and little daughter. The three shook hands with the jurors and thanked them.

Black was killed in a hotel at Marshall, Texas, while Copeland, who was a bank cashier of that place, and other men were calling on him in his room to ask him to cease his lectures in Marshall.

Whether the state will insist upon a trial for George Young and George Tier, both of whom are also charged with murder in connection with the killing of Black will probably not be known until the December term of court.

## COLOMBIA PROTESTS U S CANAL TREATY WITH NICARAGUA

WASHINGTON, Nov. 1.—Colombia has protested to the United States against the new canal route treaty with Nicaragua, it became known today, on the ground that the granting of a 99 year lease to this government by Nicaragua of Great Corn and Little Corn islands is a denial of Colombian sovereignty in those islands. Colombia claims that the islands though recently subject to Nicaraguan administration are part of her territory under the cedula of November 30, 1893, issued by the king of Spain to demarcate the various Spanish provinces in the new world. The islands are not claimed to be of any special value except strategical. They lay about 10 miles off the coast and have about 2000 population.

Some time ago, Honduras, San Salvador, Costa Rica and Guatemala protested against the Nicaraguan treaty on the ground that it infringed on their rights on Fonseca Bay and San Juan River.

The United States has not accepted the protests and the award of the Central American court in their favor has been disregarded by Nicaragua.

## PRESIDENT WOULD SIMPLIFY COURTS

President said, "I am ashamed when I do them mere justice to have them come and thank me. Political parties are very much interested in the working man when election comes around, because they know they are in the majority. I want to have the federal treasury help them to get fair legislation."

"One of the things I want to take part in is the rectification of the processes of our courts. The processes are too complex. The trouble is not with the judges and lawyers. Most of them, not all of them, want to do justice. But it is necessary to go through a mass of procedure."

"We have heard a good deal recently about the eight hour day. One of the things that interests me about it is not merely that it means justice but that it means health and happiness. I am in favor of it just as far as it can be made to work. It increases the physical vitality of workers."

"After it is done everybody will be profiting. The men who oppose it do not know what makes the heart work. They only know what makes the spleen work."

"Some of the men now most virile in criticizing the things done in the last three and a half years were formerly the men who helped to do these things. They have not seen rationals since last June."

"We are not going to be drawn into quarrels which mean nothing to us. We are not interested in seeing one nation or group of nations prevail against another."

"We are not afraid to fight and we are not disinclined to fight for the things that America stands for."

"We are waiting for the call we have always waited for. We have fought for humanity. God forbid that we should ever fight for self satisfaction or for aggression."

President Wilson left at 10:30 o'clock for New York.

## LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take no Chance! Move poison from liver and bowels at once.

Mother can rest easy after giving "California Syrup of Figs," because it a few hours all the clogged-up waste sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it can not cause injury. No difference what ails your little one— if full of cold, or a sore throat, diarrhea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup. (Advertisement)

## DOCTOR IMPLICATED BY DYING GIRL

(Continued from page one.) late spring, coming here from some place in New Mexico. According to his statement to one of the attaches of the Justice's office in Bisbee, he is originally from San Antonio, Texas. The doctor furnished bond soon after the complaint was signed by Dr. C. H. Hunt. The preliminary hearing has not been set nor has the arraignment. Undoubtedly the officials will await the outcome of the little girl's condition in the local hospital before proceeding with the case.

## YOUNG AMERICAN INVENTS FIRST RADIO "DETECTIVE"—A WIRELESS "WIRE TAPPER"

Frederick Kohler, a young experimenter in the United States, has just perfected the first radio "detective." The apparatus is a device to pick up radio messages and tell where they come from. It can pick up messages from all parts of the United States and tell without mistake their starting point to the officials of the bureau.
